

NOTICE

LEAF PICK-UP IN THE CITY OF TOMAH

The City of Tomah Public Works Department will be picking up leaves within the City of Tomah from mid-October until mid-November (weather permitting). The leaf vacuum follows the garbage route so all areas in the City will be covered.

LEAVES ONLY (NO BRANCHES, TWIGS OR ROCKS) are to be placed in the gutter OR on the alley line (whichever is the place that your regular garbage is picked up). Do not place leaves around trees, hydrants or mailbox posts and do not park on top of the leaves in the gutter. Not complying with these guidelines can cause damage to the leaf vacuum resulting in delays in the pick-up schedule.

After the deadline, City residents may still take their leaves to the compost pile near the Bloyer Field Airport along Sime Avenue.
